# ACRYLIC PEG RACKING INSTRUCTIONS

Step 1:

Below is everything included with our Acrylic Peg Racking.

Step 2:

Locate the backing board or wall space where you would like to install your peg racks. Drill the appropriate number of holes, then insert your pegs into those holes.

Step 3:

On the other side of the backing board/wall, insert the included hex head cap screws.

Step 4:

Using a wrench or similar tool, firmly turn the hex head cap screws until the pegs no longer move.
