

Installation Instructions

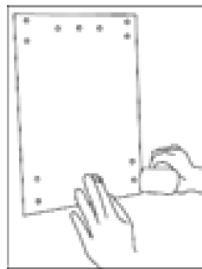

1. Peel off the back cover of sticker, and place the sticker in the position of where you want to install this wine cooler.

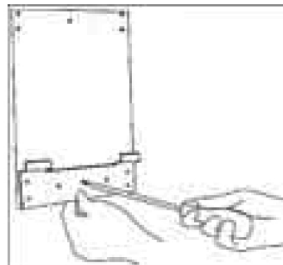

2. Drill 10 installation holes into the wall following the diagram on the sticker.

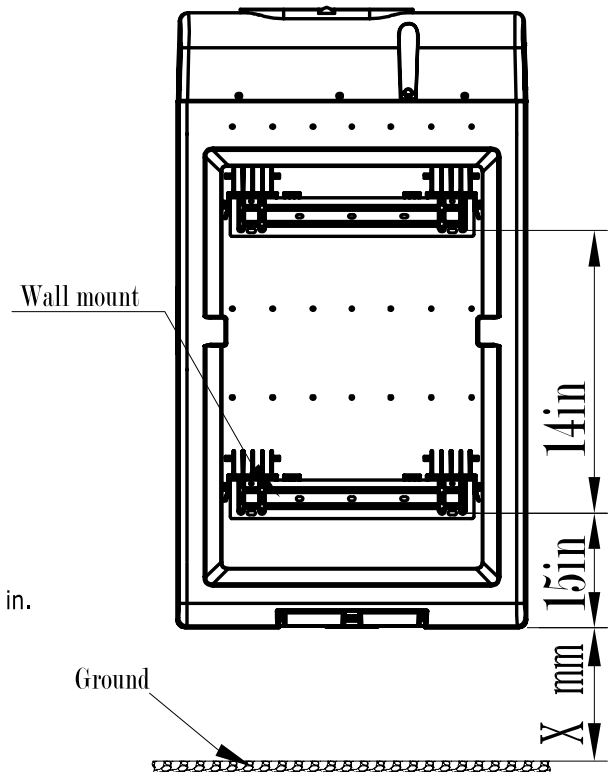

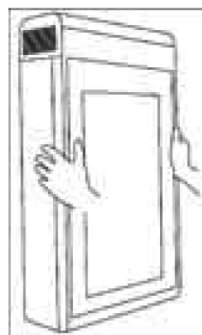

3. Hammer the support brace into the wall.

4. Install wall mount onto the support brace and securely screw in.

5. Hang the cooler onto the wall mount as shown.

Note: As an alternative method to minimize wall damage, before following the above directions, nail a wooden board (size 16" W x 27" H x .25" D) on the wall and place the sticker onto the wooden board.
