# PEG RACKING INSTRUCTIONS

**1** Below is everything included with our Modern Peg Racking.

2 Locate the backing board or wall space where you would like to install your peg racks. Drill the appropriate number of holes then insert your pegs into those holes.

3 On the otherside of the backing board/wall, insert the included washers and bolts in the order shown below.

4 Using a wrench or similar tool, firmly turn the bolts until the pegs no longer move.
