Professional Solutions for Wine Cellar Climate Control

Key Features

- Floor-mounted wine cooling system
- Digital temperature control to provide subtle cooling at 50~65 °F
- · Remote condensing unit with evaporator unit
- Evaporator unit has special coil coating
- Condensing unit can be located up 75 ft away from cellars to reduce noise
- Evaporator unit is ETL & NSF certified

Specifications

Cellar Size:	1000 cu ft
Btu/h, CFM:	4500 Btu/h, 580 CFM
Decibel Rating:	56 dBA
Dimensions:	Evaporator: 20-7/8"W x 15-5/8"D x 25-1/8"H Condenser: 18"W x 14"D x 12"H
Electrical:	Evaporator: 115V/60Hz/2A Condenser: 115V/60Hz/6A
Weight:	Evaporator: 42 lbs Condenser: 60 lbs
Refrigerant:	R134a
Thermostat:	Advanced Digital Control Display

Wine-Mate 4500SSA

Split Floor-Mounted Wine Cooling System

Features

WINE~MATE floor-mounted split cooling systems WM-4500SSA are designed to provide a cold environment between 50~65 °F with a humidity range within 50~75% RH for a properly insulated wine cellar. These temperature and humidity ranges are optimized for long term storage of wine like that in natural caves. SSA evaporator units are designed for mounting on the floor, making them an ideal choice for quick and convenient installation. The evaporator units have a special coil coating. SSA cooling systems consist of a remote condensing unit and an evaporator unit and they are connected by a liquid line and an insulated suction line. SSA condensing units can be located away from the wine cellars up to 75 ft so that noise and compressor vibration are isolated.
