Dear Francis,

I want to thank you for the incredible mahogany and glass Vinotemp which you constructed for me. I very much appreciated the fact that you were willing to match the unit to a chair from my home. The match was excellent. The attention to detail from you and your staff was impressive as was teh effort you expended on my behalf. Thank you very much! You have created a work of art for my home.

I look forward to the time when I will need another 700 unit and can call on you for assistance.

Sincerely,

George J. Pratt, Ph.D.
